14:27:00 From Maria-Anna NEON : Two more minutes, thank you

14:29:06 From Luke Parmenter : In my case Laura, we put a call out to our outreach ambassadors. Seven came forward and we felt it was important to pay them for their contribution too

14:30:48 From Amy Manktelow : We recruited through individual programmes in our department via email/word of mouth and training events

15:58:43 From Alison Jenkinson : How transferrable is this approach to other schools or widening out to work with more schools?

16:00:04 From Rita Dattani : Is it over a limited time only or is it a long term project?

16:02:20 From Caterina : Thank you, Hannah. This sounds like amazing work! Is there any incentive for King's students to apply to the University of Surrey? I know of similar schemes where students who engage in long-term projects with the university can benefit from contextual offers and tailored support with their applications.
