

NEON Symposium 2020

21ST & 22nd October 2020

Chat feature

Session B – Afternoon – Day One

14:16:10 From Maria-Anna NEON : Hi all, any questions for Richard, please write here, thank you

14:19:06 From s.marchment@kingston.ac.uk : This is very intimate with closely held feelings, how are these issues managed within a group context, where it is less possible to contain and interpret emotions within the group. Looks like there is some group discussion involved. What if there is no group cohesion?

14:23:35 From amie Richardson : what year groups is this project offered to? Do you find any differences in themes/engagement/attitude in the project depending on age/gender etc?

14:26:20 From Maria-Anna NEON : Two more minutes, thank you

14:27:23 From Ant Sutcliffe : Great project! Brining parents to the book signing really breaks barriers. Not many WP projects can say they produce literal published authors. Brilliant, Richard.

14:28:07 From s.marchment@kingston.ac.uk : Great project - thank you!

14:28:21 From amie Richardson : really interesting thanks :)

14:28:37 From Alex Sparrow (HiHo) : Thanks, Richard!

14:35:28 From Shauna - University of Kent : I'm just wondering if the slide should have changed?

14:36:23 From Shauna - University of Kent : Ah, ignore me!

14:43:01 From Hannah Merry : If anyone has questions for Justine and Katherine, please write them here!

14:50:51 From Michelle : It sounds like a great programme! How did you select/match the undergraduate students who supported as coaches?

14:51:18 From Lauren Barraclough - Uni of Leeds : This is so interesting! With something that is so self-directed by the young people and the coaches, what did you consider in terms of safeguarding both the young people and the coaches?

14:51:27 From amie Richardson : what evaluation insights did you hope to get from sitting in on sessions and how would that have helped/been different from the end evaluation?

14:53:26 From Lauren Barraclough - Uni of Leeds : Very useful, thank you!

14:57:01 From Maria-Anna NEON : Hi All, we have a 10 minute break at 3pm, the next session starts at 3.10pm, thank you

14:58:46 From amie Richardson : thank you :)

14:59:03 From N D : thank you

14:59:12 From Lauren Barraclough - Uni of Leeds : thank you!

15:11:59 From Luke Parmenter : Dont test me

15:13:27 From Hannah Merry : If anyone has any questions for Annette please do drop them in to the chat and we'll come to them at the end

15:29:54 From Sophie Hoyle (University of Manchester) : No questions, but it was really interesting - thank you!

15:32:54 From Poppy Hudghton : I don't have a question but we have found NERUPI invaluable (Queen Mary)

15:33:05 From James Elliott : Thanks Annette - interesting

15:33:14 From Liz : That was really interesting thank you but have to nip off for school pick up.

15:33:17 From Tiffany Evripidou : thank you, really great talk

15:47:27 From Hannah Merry : If anyone has any questions for Charlie and Lauren, please drop them in the chat and we'll come back to them at the end

15:52:37 From Ant Sutcliffe : The A level / BTEC results fiasco this year has led to an reopening of the debate around PQAs. What are UCAS' views on this debate with particular attention to how they may help WP learners?

15:56:05 From Kayleigh : Is that 13x more likely in higher tariff? For overall what is the number?

16:09:32 From Kayleigh : Thank you

16:09:50 From Sophie Hoyle (University of Manchester) : Are students aware of the score they receive in the MEM, or is it just data available to universities?

16:11:04 From Kayleigh : Which measures will be used for MEM data in 21 cycles whilst waiting for FSM?

16:11:10 From Charlie : <https://www.ucas.com/data-and-analysis/undergraduate-statistics-and-reports/ucas-undergraduate-sector-level-end-cycle-data-resources-2019>

16:11:21 From Charlie : End of cycle dashboard

16:12:28 From Charlie : <https://www.ucas.com/data-and-analysis/undergraduate-statistics-and-reports/statistical-releases-daily-clearing-analysis-2020>

16:14:09 From Sophie Hoyle (University of Manchester) : thank you

16:15:15 From Kayleigh : How long are we likely to need to wait for that data?
