Today's layout.

By the end of the session today you will feel confident in:

- Identifying methods and models for collaborative work with widening participation team.
- Understanding how student led outreach can change the scope and impact of the outreach activities.
- Create a plan for effective engagement with students at your own intuitions – or build on what you currently have in place.

How it works in practice: Past & Present

- A brief history of the role .
- The role as it is now.

What is our USP?

- Leadership positions
- A trusted relationship

Highlight : Pharmacy

- Target group – General WP students

“It is rewarding to contribute to local communities, no matter how small that is.”

“It has been a very rewarding experience for me to lead these programmes and I have managed to gain so many skills that I could not have gained without doing these programmes such as time-management skills, organisation skills, communication skills.”

Highlight: KCL STAR

- Target group – Refugees and Forced Migrants

“One student said they will now try to go to university after seeing it was cool. Another student stated he will one day attend King's.”

“By doing a WP project you impact surrounding communities who may not have had to opportunities you have had and grow as a person yourself.”
