

MOVEMENT IN MEDICINE

Michaela O'Connell

Widening Participation Manager (Partnerships) - King's College London

Today's Talk:

- Why?
- What?
- How?

WHY?

'Medicine remains one of the most inaccessible professions, with 80% of medical school applicants coming from around only 20% of schools, the majority of which are independent or grammar schools.'

STATE OF THE NATION 2016:
SOCIAL MOBILITY IN GREAT BRITAIN

WHAT THEN?

Key Stage 3. 4, 5

Medical Activity Days
In school visits

Key Stage 5

EMDP & CONTEXTUAL ADMISSIONS

Those that complete MedView, K+ & Realising Opportunities benefit from a contextualised admissions process.

Also eligible for our Extended Medical Degree programme:

- WP students
- 1 year longer
- Additional academic & pastoral support
- Same qualification

Key Themes...

AIMS & EVALUATION

All activities have clear learning outcomes that can be robustly evaluated.

TARGETED STUDENTS

The schools & students involved are selected based on multiple indicators.

MULTIPLE INTERACTIONS

Student numbers have dropped, but increased number of interactions leading to greater impact.

LIFE CYCLE APPROACH

Each intervention is tailored to the stage of the students educational journey, with support from year 5 through to entering university.

HOW?

- Strategy
- Structure
- Relationships
